Service

OPERATING MATERIALS

For smooth operation, we recommend special coolants such as the fully synthetic, temperature- and oxidation-resistant Syprem SX or FoodLub H1P, which is certified for the pharmaceuticals and food industries.

CAIRPAC

All cairpac maintenance packages include BOGE original parts, which ensure consistently high system efficiency. Your investment is, therefore, guaranteed the best possible protection at fair prices.

BESTCAIR

BOGE's bestcair gives you 5 years' guaranteed protection for all replacement parts. This warranty is free for you and we will provide original BOGE replacements immediately for the entire period.

MAINTENANCE AGREEMENTS

Our service packages are tailored to your requirements and range from system inspection and maintenance agreements to a full service agreement, whereby we carry out all work to your compressed air system without exception.

CERTIFIED SERVICE

Whether commissioning, maintenance, repair or inspection – our certified BOGE service engineers around the world are your port of call for all technical matters.

TRAINING

To ensure that our customers and partners are always on the front foot, our compressed air academy offers sales and technical training as well as seminars about efficient compressed air management.
